Union Stock Yards, South Omaha, Neb., Sept. 25.—The week opens out with the heaviest receipts of cattle in the history of the market. There were 24,000 fresh cattle here, nearly all western rangers, and both packers and feeder buyers started bidding 15@25c lower than last week. Cows and heifers suffered fully as much as fat cattle and it was a slow, unevenly lower, all day market.

Tops brought \$18.75 and the bulk of the trading was at \$18.10@18.00.

Sheep and Lambs Lower. There was a big Monday's run of sheep and lambs today, 35,000 head, and prices were lower all along the line. Aged stock did not show much decline, but fat lambs as well as the feeder grades were slow sellers at declines of 15@25c. Fat lambs brought \$17.50 and feeder lambs \$18.25.

Chadron State Normal School

Robert I. Elliott, President

The enrollment at the Normal is very gratifying so far considering the existing conditions. It is estimated that the increase over this time last year is 15 to 20 per cent. Of course the enrollment would be very much larger were it not for the fact that many of the boys have enlisted or been drafted and others have found it necessary to stay at home and help with the various kinds of work, owing to the shortage of help.

The Manual Training department is practically in readiness now. The room given over to this work is about sixty by seventy-five feet. Professor Clements, the manual training instructor spent the last two weeks in August getting the room in shape and building a tool room, finishing room and lumber room. Nearly all the domestic science equipment is on hand and will be installed as soon as the carpenters have finished the wood work in the new wing.

The recital given by Professor Townsend Monday morning was very well received. Mr. Townsend proved himself to be a real artist on the violin. His work shows the results of his very thorough training and the Normal feels very fortunate in having him on the faculty. He has made an intensive study of the violin since he was a small boy and has spent the past four years with Professor Molzer of Lincoln, two years as his assistants. Mr. Townsend has a number of private students and more are coming daily.

Professor Yarnley comes to us from Asheville, N. C., and brings the highest of endorsements. He will have charge of the voice department and will organize glee clubs and choruses. Mr. Yarnley will give a recital before long, although a definite date has not been set. Professor Yarnley was unfortunate in

being run over by an auto before coming and for this reason his work has been somewhat delayed.

Plans are now being made for a pageant to be given under the direction of Miss Cowan, head of the department of expression. Miss Cowan took special work in pageantry in Connock School of Oratory and the pageant given will be up-to-date in every particular.

A reception was given Friday night by the young ladies of the Y. W. C. A. A short program was given presided over by Ellen MacMillan, president, which was as follows: Address of welcome Ellen MacMillan; Piano solo, Mary Wilson; Musical readings, Miss Cowan; Vocal solo, Miss Seoval.

Lively games were played under the direction of Miss Anna Hoffland. Punch was served presided over by Miss Florence Collins and her assistants, Wanda Adams, Jean Blish and Josephine Marcy. A very delightful time was enjoyed by all.

The girls in the Cookery III class are doing canning and preserving, as well as the girls in the II division of the Model High.

The Y. W. C. A. girls are having a membership campaign under the direction of Miss Gladys Braddock and every girl in school will be asked to join.

The girls at the dormitory who had been at the dormitory before, initiated the new girls last evening. The various means employed for the initiatory services and the solemn vows exacted from each girl regarding her future loyalty to faculty members, etc., afforded a great deal of amusement for the onlookers and a general good time was had by all.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

● If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
